8 M/23/11/20	Science – Cumulative Examination – Mon 23/11

OUR LADY OF THE SOUTHERN CROSS COLLEGE

Assessment Notes

The Queensland Curriculum and Assessment Authority makes it clear that student assessment can only be judged on the evidence submitted **on or before the due date**, unless there is a verified case for special provisions.

Student Responsibilities

- Complete all drafts and assessment by the class lesson on the due dates outlined on the task sheet
- Ensure that their assessment and/or draft is ready to hand in before their lessons and submitted through Turnitin via the Canvas course
- Save your work in more than one place, as no extra time will normally be allowed for computer malfunction

Students who are UNAVOIDABLY absent on the day when an assignment is due (absence is explained and verified), must arrange for the assignment to be submitted by 3pm on the due date. The College office must be notified of the absence by 9.00am on the day of absence.

Plagiarism

Work submitted by a student must be verifiable as their own work. Work in progress, including rough drafts of essays, should be sighted by the teacher. Material from other sources must be acknowledged. Where it is identified that a student has copied work, either from another student or from a source (e.g. the Internet, encyclopaedia), or has engaged an outside source to complete some or all of their assessment, the student's assessment item can only be judged on the sections which can be verified as their own work.

For further information, please consult with pages 23-25 in the Student Diary.
